✓ What if my laptop develops a hardware issue?

Lambda offers perpetual support from our engineers and up to 3 years of warranty. If you experience issues with your TensorBook, our engineers are available by email at support@lambdalabs.com and by phone at +1 (855) 882-6011. We will immediately replace any faulty components (e.g. GPU, CPU, battery), which you may return at your convenience. If your TensorBook is still under warranty, all replacements will be free of charge. Solutions to technical issues may also be found within our community, Deep Talk.
